

Peterson Road

Community Work Day & Soil Stabilization Training

Saturday February 20, 2021
10AM

Sierra Resource Conservation District, Natural Resources Conservation Service (NRCS), Central Sierra Resiliency Fund, and People Food and Land Foundation (PFLF) are supporting the Peterson Road community in clearing culverts to prevent blockage along Peterson road and spread rice straw. Chris Velez, PFLF Board Member and native plant expert at Inter-mountain Nursery will train volunteers in soil stabilization techniques. NRCS engineer Jon Chilcote will guide the culvert clearing work. **Meet at Tollhouse & Peterson at Mt. Rest Forest Service Station.**

Volunteers are encouraged to wear closed toed shoes, work clothes, and gloves. **Masks and social distancing required.** RSVP to Allyson at rfvolunteers@sierrahistorical.org for more information.
